## **NHA Hydrogen and Fuel Cell Technology Expo Grows**

**Washington, DC**—The exposition at the 2010 NHA Hydrogen Conference & Expo, to be held May 3 - 6, at the Long Beach Convention Center, is projected to be 10 to 20 percent larger compared to the 2009 event, according to Bruce Cole, Expo Manager for the National Hydrogen Association (NHA).

By mid-February exhibit sales had equaled the 2009 expo sales. "We know that new exhibitors will join the event in March and April, positioning the Expo for the NHA Hydrogen Conference for growth," Cole said.

"It is remarkable that during a recession, and in a year when confusion about the benefits of hydrogen technologies seems to be rippling through the Federal government, we are still seeing this growth," Cole said.

"It is a testimony to the strength of the technology, the conviction of major industry players and the real progress being made every month to move hydrogen and fuel cell products around the world into the marketplace. A major goal of the NHA Hydrogen Conference and Expo is to highlight those products so attendees can see them first-hand and talk to the people who are doing the actual technology development."

### **About the NHA Hydrogen Conference and Expo**

The NHA Conference and Hydrogen Expo is the largest hydrogen conference in the U.S. and the longest running annual hydrogen conference in the world. This year, the theme is "Green energy, green jobs, green planet."

This year, the event will focus on current breakthroughs and challenges with the commercialization of hydrogen fueled technologies. Like past years, it will feature more than 1,500 attendees, over 100 exhibitors, more than 40 conference sessions, dynamic, executive keynote addresses, side events, the popular Ride and Drive and some of the best technical and cutting-edge content in the field. Plan to join the hundreds of others who will be attending the 21st Hydrogen Conference at the Long Beach Convention Center in Long Beach, CA, May 3-6, 2010. Registration, expo space and other info can be found at: [www.HydrogenConference.org](http://www.HydrogenConference.org)

**Confirmed Exhibitors (25 Feb 10)**

Air Products & Chemicals, Inc.  
American Honda Motor Corp.  
AREVA NP Inc.  
Bing Energy, Inc  
California Air Resources Board - CARB  
California Fuel Cell Partnership  
Connecticut Ctr. for Advanced Tech. - CCAT  
FIBA Technologies Inc.  
Fiedler Group  
Gas Technology Institute - GTI  
General Physics Corporation  
GreenField Compression, Inc.  
Hydrogen Technologies  
Hydrogenics Corporation  
Hydro-Pac Inc.  
Idaho National Labs - INL  
Innergy Power / Fuel Cell Store  
Institut für Mikrotechnik Mainz GmbH  
ITM Power  
Kraus Global  
Linde LLC  
Mercedes-Benz RDNA  
Mohawk Innovative Technology, Inc.  
National Alternative Fuels Training Consortium (NAFTC)  
Nuclear Energy Institute - NEI  
PDC Machines Inc.  
Powertech Labs, Inc.  
Proterra  
Proton Energy Systems, Inc.  
RIX Industries  
Shell Hydrogen  
Structural Composites  
University of North Dakota - EERC  
US DOE Fuel Cell Technologies Program  
WEH Technologies Inc.  
Westinghouse Electric Company
